

# Liaka Company

**a suitable solution for every challenge**

**Insulation and sheathing compounds  
for use in wire and cable industry.**

## **PVC Compounds**

- Flexible and fixed installation cable.
- Flame retardant ,low smoke and low acid cable.
- Oil resistance cable.
- UV resistance cable.
- Anti rodent and termite cable.
- Instrument and control cable.
- High temperature compound for automotive wire (T1, T2)
- High temperature compound for cable industry (PVC E)
- Industrial network cable.
- Audio, radio and camera cable.
- Welding cable.
- Transparent cable.

## **Crosslinkable polyethylene insulation compound XLPE**

- XLPE compound for LV power cable.
- XLPE compound for LV power cable- high speed extrusion.
- Black XLPE compound for LV aerial cable.

## **HFFR Compounds Low smoke halogen free flame retardant compounds offer excellent balance of properties**

- High cracking resistance.
- Easy processability.
- Easy colorability.
- UV resistance.
- Oil resistance.
- Good flame retardancy.
- Low smoke emission.
- Excellent mechanical properties.
- Halogen free.
